## *Dementia Care and Falls Prevention*

# 腦退化症照顧與預防跌倒

一個專為腦退化症病者、照顧者及社群而設的簡介課程

## Mandarin Workshop 六月（國語講授）

腦退化症病者跌倒發生率為一般常人的兩倍以上，如何照護以及預防腦退化症病者跌倒成為照顧者重要的課題。本課程提供有關預防跌倒的資料與實用建議，包括跌倒危險因素，居家環境改造，輔具的使用，行為和教育課程，歡迎早期患者，其照顧者和社區民眾參加。

People with dementia are 2 times more likely to experience falls than older people without dementia. It has become one of important topics of dementia care. This presentation provides fall prevention strategies, risk factors for falls, home modification, adaptive equipment and positive lifestyle changes. People with Alzheimer's disease and other dementia, care partners and general public are all welcomed to attend.
